NAAC Accredited with CGPA of 2.62 on 15/11/2015 as 'B' Grade

Phone & Fax: (03753) 246777, Mobile(s): (+91) 9435534268, 8472861787

teacher can listen their reading student wise.

Model Imitation – Students listen to and repeat after a model track to practice the stress rhythm and intonation of a foreign language, while their voices are recorded onto the student track. Students can either use sources with ready-made pauses in them or manually pause the audio source during the activity.

Roundtable discussion – Roundtable discussion allows teachers to set up small student groups with a designated chairman, who leads the discussion and assigns turns during the discussion by passing a microphone around the group. The activity allows teachers to set up a meeting environment to help advanced language learners strengthen their oral presentation skills. Chairmen and participants for the groups can be defined either manually or with automatic options. Student applications can display a list of discussion participants and chairman and students can request the microphone by clicking a request button. Teacher can listen in on each group and participate in the discussion when needed.

Content Exercise – The Content exercise activity is used together with ready-made with customized content provided by reputed publisher. The activity allows you to launch content files directly to students into an exercise window that includes all text, image, audio and video resources for the exercise. Report tool for the Content Exercise activity should allow teachers to view, edit and save a detailed listing of student scores. Content should be in HTML/MS Word format

Vocabulary Test – The activity allows teachers to easily conduct word quiz -type language learning tests. The teacher can either enter the quiz words manually or by importing a ready word list and students will then need to simply fill in their answers in a dialog that is launched on their screens. The activity allows teachers to create, launch and save tests, as well as collect results. Teachers are also able to display individual results to students and mark answers as correct or incorrect.

Subtitle -The system should allow both the teacher and students to use any audio or video file as content and also to add subtitle to that file

Pronunciation Tool: -The System Should provide Individual solution for improving oral skills in a foreign language. Should allow you to easily transform text material into spoken audio for pronunciation and speech practice. Should guides students to improve their pronunciation through instant feedback and visual indication of what sounds and words to improve on. Select the voice that will read the model sentences. Adjust the playback speed of model audio. Lower speed may be used to facilitate understanding. Adjust how long your own recording time will be in comparison with the model sentence. Whilst recording, the system is analyzing your speech. Once the recording is complete, system should automatically score your performance. Color indications should guide student on the performance.

Manuals: Vendor should provide both printed and electronic user manual, training module and system user guide in English.

Voice: Premium Voice packages should be included for languages: English (US voice), English (UK voice) and English (Australian voice). Voice record and play back.

Installation, Testing, Training and Maintenance Support: The vendor must provide installation, testing, train the operator/instructor and provide full one year (12 months) maintenance support after go live the system.
